

ALL USERS OF THE FINTRAY VILLAGE HALL

PARKING CONGESTION AT HATTON OF FINTRAY PUBLIC HALL

There has been feedback from local residents that parking at the village hall has been causing disruption over the past few months. It is good that the hall is being used regularly by so many people, and we want this to continue, but not at the expense of our neighbours.

Firstly then, a reminder that there is ample parking by the tennis courts behind the hall. A concrete flag path has been laid leading to the hall and additional street lighting installed which makes use of the car park much more attractive than it used to be.

Hopefully, increased use of this car park will resolve the problem. To help further ease problems, we will be improving the signposting at the hall and the road markings, to show where no parking is permitted. We also plan to install a bollard to ensure clear pedestrian access past the hall to the tennis court car park.

Please can you pass this message on to members of your group so that everybody is made aware of the situation.

Thank-you for your assistance

The Fintray Hall Committee
